**As a veterinarian, when it comes to IT (information technology) do you feel “Lost in Space”? How do you handle network downtime? (see picture below). Have you found out that your data hasn’t been backed up...for six months? Do you feel lost in the cloud?**

**Join us for a 30 minute tele-seminar featuring Joseph Axne, IT-Guru, works specifically with veterinary practices to make technology less stressful. You don’t know what you don’t know until it becomes a crisis. The role of your IT specialist is to give you peace of mind.**

**Feel free to submit your questions ahead of time to [pweinstein@scvma.org](mailto:pweinstein@scvma.org)**
